

## **ALPHABET ACADEMY TESTIMONIAL 11/5/08**

*“When it came time for my children to attend preschool, I observed a number of area schools. I chose the Alphabet Academy because of the small class size and affordability. We were familiar with the preschool due to my children’s participation in other Belleville Parks & Recreation programs. The choice made the transition much easier. Children receive individualized instruction due to the low student to teacher ratio. Staff go out of their way to make the preschool a family-friendly environment. Since Alphabet Academy is housed at the Nichols Community Center – a former Belleville school and historically significant structure the preschool has access to a lot of indoor and outdoor space where kids can be active and explore in a structured environment. Teachers are organized and creative in their approach to learning. Most importantly, my daughter is on track for kindergarten and enjoys going to school!*

*Sincerely,
