Police Chief, Bill Clay excused.

PLEDGE

Mayor Eckert led the Pledge of Allegiance.

PUBLIC HEARING

None.

PUBLIC PARTICIPATION

Stewart Lannert

There is no point on talking about anything on the agenda because anything on the agenda has already been decided long before this meeting got started. Whatever happened to the Jack Flash Truck Stop? The reason he does not participate in the Pledge of Allegiance is because he respects the Pledge of Allegiance too much to be involved since most of the democrats in St. Clair County are a bunch of low life...*Mayor Eckert reprimanded Mr. Lannert.*

The aldermen have the reputation of being bobbleheads and in the presentation and recommendation/appointments; the mayor single handedly named 8 of the 9. It should read "Mayor Eckert and City Council recommends". He does not think 16 aldermen are needed...eight would be fine.

There was an argument outside of his home. There were two police cars and an ambulance. The next day they picked up and left. How did he get admitted to the apartment?

Mary Wilson

Asked what precedent the city sets when determining street closures in downtown Belleville. How is it determined what business benefits, what business doesn't and for the benefit of the city. She stated it is unfair with the decisions that have been made in the past regarding the two street closures that is coming up on High Street. She is an employee of one of the businesses and it affects their business when she has to take away from the duties she is being paid for to deal with the people outside. No consideration has been given to Ben's.

Beth Wamble

She is the manager at Ben's in downtown Belleville. She sent an email to the elected officials concerning street closures. She supports every business in Belleville and is not trying to hurt any other business and she would like all of the businesses in downtown to be successful; however, each business should be accountable for themselves and if a street closure is a detriment to one business but helps another business this is not fair. If the business cannot figure out a way that it is not a detriment to the other businesses it should not be done.

Before something like this goes to City Council the businesses that it will effect should be notified. Ben's was not notified. The Lincoln submitted a letter which states they do not feel that this particular street closure is a detriment to them the way that they are handled is a problem.

Ben's is doing everything they can to support the city. She submitted a postcard that Ben's hands out to customers that reflect the benefits to the city and community when they shop local.

Explanations

ST. CLAIR COUNTY

LABORERS (NORTH) - The area bounded by Route 159 to a point south of Fairview Heights and west-southwest to Route 3 at Monroe County line.

PLUMBERS & PIPEFITTERS (SOUTHEAST) - That part of the county bordered by Rt. 50 on the North and West including Belleville.

PLUMBERS (NORTHWEST) - Towns of Aloraton, Brooklyn, Cahokia, Caseyville, Centreville, Dupo, East Carondelet, E. St. Louis, Fairview Heights, French Village, National City, O'Fallon, Sauget, and Washington Park.

The following list is considered as those days for which holiday rates of wages for work performed apply: New Years Day, Memorial Day, Fourth of July, Labor Day, Thanksgiving Day, Christmas Day and Veterans Day in some classifications/counties. Generally, any of these holidays which fall on a Sunday is celebrated on the following Monday. This then makes work performed on that Monday payable at the appropriate overtime rate for holiday pay. Common practice in a given local may alter certain days of celebration. If in doubt, please check with IDOL.

Oil and chip resealing (O&C) means the application of road oils and liquid asphalt to coat an existing road surface, followed by application of aggregate chips or gravel to coated surface, and subsequent rolling of material to seal the surface.

EXPLANATION OF CLASSES

ASBESTOS - GENERAL - removal of asbestos material/mold and hazardous materials from any place in a building, including mechanical systems where those mechanical systems are to be removed. This includes the removal of asbestos materials/mold and hazardous materials from ductwork or pipes in a building when the building is to be demolished at the time or at some close future date.

ASBESTOS - MECHANICAL - removal of asbestos material from mechanical systems, such as pipes, ducts, and boilers, where the mechanical systems are to remain.

CERAMIC TILE FINISHER AND MARBLE FINISHER

The handling, at the building site, of all sand, cement, tile, marble or stone and all other materials that may be used and installed by [a] tile layer or marble mason. In addition, the grouting, cleaning, sealing, and mixing on the job site, and all other work as required in assisting the setter. The term "Ceramic" is used for naming the classification only and is in no way a limitation of the product handled. Ceramic takes into consideration most hard tiles.

ELECTRONIC SYSTEMS TECHNICIAN

Installation, service and maintenance of low-voltage systems which utilizes the transmission and/or transference of voice, sound, vision, or digital for commercial, education, security and entertainment purposes for the following: TV monitoring and surveillance, background/foreground music, intercom and telephone interconnect, field programming, inventory control systems, microwave transmission, multi-media, multiplex, radio page, school, intercom and sound burglar alarms and low voltage master clock systems.

Excluded from this classification are energy management systems, life safety systems, supervisory controls and data acquisition systems not intrinsic with the above listed systems, fire alarm systems, nurse call systems and raceways exceeding fifteen feet in length.
