RE: Side Letter of Agreement to Easement
Easement for property in reference to
Parcel number: 08-22.0-215-028
Located near Hecker Street, Belleville IL

Dear Tim Gregowicz,

Illinois American Water Company (IAWC) wishes to acquire easements on the parcels impacted by the construction of a water main located along Hecker Street in St. Clair County, Illinois. This letter introduces Heather Donze, of Volkert, Inc., a consultant under contract with IAWC. Ms. Donze will represent IAWC in the acquisition of this parcel with you and will explain the project, the type of construction, the specific effect on your property and will attempt to answer any questions you may have concerning this transaction. Please feel free to deal directly with Ms. Donze concerning any questions or concerns. She can be reached at (618) 345-8918 ext. 3648 or (727) 267-7766. The route proposed for replacement of this water main makes it necessary for us to acquire an easement from the proposed right-of-way-line. This Receipt and Side Letter of Agreement is designed to address any concerns with negotiations and pipeline installation.

Receipt for Easement measuring 468 square feet more or less, along the centerline of the easement, encompassing land situated in Part of Lot 11B of the "E.E. Wangelin's Subdivision" of part of U.S. Survey 375, County of St. Clair, State of Illinois as right of way easement for Illinois American Water Company, dated _____ and execute by the undersigned grantor(s), is hereby acknowledged.

IAWC (Grantee) is willing to offer easement compensation in the amount of \$250.00 (Two Hundred Fifty Dollars)

Payment of **\$250.00 (Two Hundred Fifty Dollars)** to the Grantors as **total consideration** for the easement granted to Illinois American Water Company.

IAWC agrees to be responsible for any damages caused as a result of any of our construction, operation, maintenance or repair of Grantee's facilities and shall reimburse Grantee for said items if we do not repair and/or restore said items within a reasonable amount of time. This does not supersede the easement language which states "no building, structure, or similar improvements shall be erected within said easement, nor shall the grade or ground cover be substantially altered without the consent of the Grantee. In other words, IAWC agrees to not cause property damage, and if we cause damage, IAWC will fix it. However, IAWC request no substantial structures such as buildings or monuments be placed within the easement which would affect our ability to maintain and operate the water main.

The grantor(s) agree to protect, preserve, and maintain the property and improvements.

This receipt and letter of side agreement covers all right, title and interest of the respective Grantor(s) in the premises conveyed and all the obligations of the Illinois American Water Company. The receipt and conveyance documents are the entire, exclusive agreement of the parties and supersede any written or oral understanding, promise or agreement, directly or indirectly related to easement. Furthermore, the parties agree that any changes to this receipt may only be made in writing and signed by the parties.

TO HAVE AND TO HOLD the above granted Easement unto the Grantee, its successors and assigns, forever.

The Grantee agrees, by acceptance of this Easement Agreement, that, upon any opening made in connection with any of the purposes of this Easement, said opening shall be backfilled and resurfaced to as nearly as possible the same condition as existed when said opening was made, provided that Grantee shall not be obligated to restore landscaping, other than grass which was destroyed upon entry, all such work to be done at the expense of the Grantee.

And the Grantor does further covenant with the Grantee as follows:

1. That the Grantor is the owner in fee simple of the real estate hereby subjected to said Easement and has good title to convey the same.

Subject: Light request for 1720 East State Route 15

Tim,
Ameren has four cost estimates to install and upgrade lights at this location.

Cost Estimate #1:

We install an overhead span of primary to a transformer pole(247') and then install overhead secondary to a light pole(115'). Install 400 W HPS street light with 15' bracket and upgrade existing light to 400 W HPS. The cost for this would be \$15,728.55 plus monthly light charges.

Cost Estimate #2:

We would install overhead primary 12' to a riser pole with transformer. The city would install 350' of 2" conduit underground to our new street light pole, providing enough conduit to riser up both poles. We would provide all conductor. The cost for this would be \$11,660.80 plus monthly light charges.

Cost Estimate #3:

We install an overhead span of primary to a transformer pole(247'). The city would set an underground meter support and install their own conduit and wire to it and then to a city owned pole and street light. The only charge for this would be the monthly meter fee. The light and pole would be maintained by the city.

Cost Estimate #4:

We install an overhead span of primary to a transformer pole(247'). The city would set an overhead meter pole/light pole. We would install 115' of overhead secondary from transformer pole to meter pole at \$9.00/ft so \$1035.00 plus a monthly meter charge. The light and pole would be maintained by the city.

Please let me know if you have any questions.
Thank you.

- (7) To maintain, for a minimum of 3 years after final project close-out by the **STATE**, adequate books, records and supporting documents to verify the amounts, recipients and uses of all disbursements of funds passing in conjunction with the contract; the contract and all books, records and supporting documents related to the contract shall be available for review and audit by the Auditor General and the department; and the **LPA** agrees to cooperate fully with any audit conducted by the Auditor General and the **STATE**; and to provide full access to all relevant materials. Failure to maintain the books, records and supporting documents required by this section shall establish a presumption in favor of the **STATE** for the recovery of any funds paid by the **STATE** under the contract for which adequate books, records and supporting documentation are not available to support their purported disbursement.
- (8) To provide if required, for the improvement of any railroad-highway grade crossing and rail crossing protection within the limits of the proposed improvement.

 - Method A - Lump Sum Payment. Upon award of the contract for this improvement, the **LPA** will pay to the **STATE** within thirty (30) calendar days of billing, in lump sum, an amount equal to 80% of the **LPA**'s estimated obligation incurred under this Agreement. The **LPA** will pay to the **STATE** the remainder of the **LPA**'s obligation (including any nonparticipating costs) within thirty (30) calendar days of billing in a lump sum, upon completion of the project based on final costs.
 - Method B - Monthly Payments. Upon award of the contract for this improvement, the **LPA** will pay to the **STATE**, a specified amount each month for an estimated period of months, or until 80% of the **LPA**'s estimated obligation under the provisions of the Agreement has been paid, and will pay to the **STATE** the remainder of the **LPA**'s obligation (including any nonparticipating costs) in a lump sum, upon completion of the project based upon final costs.
 - Method C - Progress Payments. Upon receipt of the contractor's first and subsequent progressive bills for this improvement, the **LPA** will pay to the **STATE** within thirty (30) calendar days of receipt, an amount equal to the **LPA**'s share of the construction cost divided by the estimated total cost, multiplied by the actual payment (appropriately adjusted for nonparticipating costs) made to the contractor until the entire obligation incurred under this Agreement has been paid.

Failure to remit the payment(s) in a timely manner as required under Methods A, B, or C, shall allow the **STATE** to internally offset, reduce, or deduct the arrearage from any payment or reimbursement due or about to become due and payable from the **STATE** to **LPA** on this or any other contract. The **STATE**, at its sole option, upon notice to the **LPA**, may place the debt into the Illinois Comptroller's Offset System (15 ILCS 405/10.05) or take such other and further action as may be required to recover the debt.
- (11) (Local Contracts or Day Labor) To provide or cause to be provided all of the initial funding, equipment, labor, material and services necessary to construct the complete project.
- (12) (Preliminary Engineering) In the event that right-of-way acquisition for, or actual construction of, the project for which this preliminary engineering is undertaken with Federal participation is not started by the close of the tenth fiscal year following the fiscal year in which the project is federally authorized, the **LPA** will repay the **STATE** any Federal funds received under the terms of this Agreement.
- (13) (Right-of-Way Acquisition) In the event that the actual construction of the project on this right-of-way is not undertaken by the close of the twentieth fiscal year following the fiscal year in which the project is federally authorized, the **LPA** will repay the **STATE** any Federal Funds received under the terms of this Agreement.

Signal related work involving interconnects with state maintained traffic signals should also be coordinated with the IDOT's District Bureau of Operations.
- The **LPA** is responsible for the payment of the railroad related expenses in accordance with the **LPA**/railroad agreement prior to requesting reimbursement from IDOT. Requests for reimbursement should be sent to the appropriate IDOT District Bureau of Local Roads and Streets office.

 - (c) are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State, local) with commission of any of the offenses enumerated in item (b) of this certification; and
 - (d) have not within a three-year period preceding the Agreement had one or more public transactions (Federal, State, local) terminated for cause or default.
- (16) To include the certifications, listed in item 15 above, and all other certifications required by State statutes, in every contract, including procurement of materials and leases of equipment.
- (17) (State Contracts) That execution of this agreement constitutes the **LPA's** concurrence in the award of the construction contract to the responsible low bidder as determined by the **STATE**.
- (18) That for agreements exceeding \$100,000 in federal funds, execution of this Agreement constitutes the **LPA's** certification that:
- (a) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress or any employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any cooperative agreement, and the extension, continuation, renewal, amendment or modification of any Federal contract, grant, loan or cooperative agreement;
 - (b) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress or an employee of a Member of Congress, in connection with this Federal contract, grant, loan or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying", in accordance with its instructions;
 - (c) The **LPA** shall require that the language of this certification be included in the award documents for all subawards at all ties (including subcontracts, subgrants and contracts under grants, loans and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.
- (19) To regulate parking and traffic in accordance with the approved project report.
- (20) To regulate encroachments on public right-of-way in accordance with current Illinois Compiled Statutes.
- (21) To regulate the discharge of sanitary sewage into any storm water drainage system constructed with this improvement in accordance with current Illinois Compiled Statutes.
- (22) To complete this phase of the project within three (3) years from the date this agreement is approved by the **STATE** if this portion of the project described in the Project Description does not exceed \$1,000,000 (five years if the project costs exceed \$1,000,000).
- (23) To comply with the federal Financial Integrity Review and Evaluation (FIRE) program, which requires States and subrecipients to justify continued federal funding on inactive projects. 23 CFR 630.106(a)(5) defines an inactive project as a project which no expenditures have been charged against Federal funds for the past twelve (12) months.
- To keep projects active, invoicing must occur a minimum of one time within any given twelve (12) month period. However, to ensure adequate processing time, the first invoice shall be submitted to the **STATE** within six (6) months of the federal authorization date. Subsequent invoices will be submitted in intervals not to exceed six (6) months.
- (24) The **LPA** will submit supporting documentation with each request for reimbursement from the **STATE**. Supporting documentation is defined as verification of payment, certified time sheets or summaries, vendor invoices, vendor receipts, cost plus fix fee invoice, progress report, and personnel and direct cost summaries and other documentation supporting the requested reimbursement amount (Form BLRS 05621 should be used for consultant invoicing purposes). **LPA** invoice requests to the **STATE** will be submitted with sequential invoice numbers by project.

- (25) The **LPA** shall provide the final report to the appropriate **STATE** district within twelve months of the physical completion date of the project so that the report may be audited and approved for payment. If the deadline cannot be met, a written explanation must be provided to the district prior to the end of the twelve months documenting the reason and the new anticipated date of completion. If the extended deadline is not met, this process must be repeated until the project is closed. Failure to follow this process may result in the immediate close-out of the project and loss of further funding.
- (26) (Single Audit Requirements) That if the **LPA** expends \$750,000 or more a year in federal financial assistance they shall have an audit made in accordance with 2 CFR 200. **LPAs** expending less than \$750,000 a year shall be exempt from compliance. A copy of the audit report must be submitted to the **STATE** (Office of Finance and Administration, Audit Coordination Section, 2300 South Dirksen Parkway, Springfield, Illinois, 62764), within 30 days after the completion of the audit, but no later than one year after the end of the **LPA's** fiscal year. The CFDA number for all highway planning and construction activities is 20.205.

The **LPA's** DBE program, as required by 49 CFR part 26 and as approved by USDOT, is incorporated by reference in this Agreement. Upon notification to the recipient of its failure to carry out its approved program, the **STATE** may impose sanctions as provided for under part 26 and may, in appropriate cases, refer the matter for
