PUBLIC PARTICIPATION

Stewart Lannert

Mr. Lannert stated the City has requested that public participation be directed to what is on the agenda. What is on the agenda is cut and dried and decided long before the meeting starts.

As far as Frisbee golf at Bicentennial Park it is a bad idea. The carpet and tile in the city council chambers takes two different types of cleaner (vacuum for the carpet and a mop for the tile). This is a poor design and should have been designed with one cleaning operation.

When is the beer hall opening? It was supposed to open on February 26th but didn't say a time. What happens if it loses money like the airport.

The house on McClintock should have been monitored closer to see if it conforms to code.

There are too many police cars around Lindenwood. The Lindenwood police should have proper training. The Belleville police have enough to do.

Discussion...

Mayor Eckert stated convenience stores could never have gaming or sell alcohol that was open. The State of Illinois has a truck stop ordinance that the City of Belleville adopted for Jack Flash. This allows gaming; however, no pour alcohol. They have to be on a minimum of 3 acres, they have to sell 10,000 gallons of diesel fuel.

There is a request for another truck stop at location of 161 and Fullerton. Moto would like to put a large Moto there. This will adjust the ordinance that was passed several months ago and amend to say instead of two miles from an interstate that these facilities must be on a state highway and must have a minimum building size of at least 5000 sq. ft.

Swansea City Council approved this. Mayor Eckert stated the city has been trying for 13 years while he has been mayor to try and get something at this location. Alderman Buettner asked if they will have gambling at the new location; Mayor Eckert stated they will have a gaming room and there will be no open liquor.

PUBLIC PARTICIPATION

Ashley Pollock

Ms. Pollock is speaking in support of the amended financial proposal for the Meredith Home. This is a rare opportunity as a historian that you are taking a beautiful piece of Belleville's history and recrafting in such a way for the future that will create economic prosperity that is truly exciting for downtown Belleville. She urges the council to vote in favor of the proposal.

Michael Hagberg

Alderman Elmore mentioned that the City is selling the property for \$600,000 and the vouchers are for only \$426,000. While that is true you forget the taxpayers paid \$490,000 for the building and another \$126,000 to repair the roof. There is a substantial investment in the building.

For those of you that have questions about parking he recommended that they read the Downtown Surface Parking Study and the Downtown Parking Structure Studies that were done for the City.

There have been businesses that have come and gone since the reports were done; however, in general they are good reports and a good study of parking for the downtown area.

The question that didn't come up is will the assistance be paid for with TIF funds or will other funds be used? What happens if the TIF expires before the 10th year of assistance.

In conclusion, he is in favor of this project. He has always wanted to see the building saved but hopes the expenses to the taxpayers to be kept at a minimum.

Robert Brunkow

Belleville has treasurers that have been hiding in full view for decades. These are the downtown buildings of historic and architectural value. A growing number of these are being recognized for what they are and being revitalized. The historic Hotel Belleville (Meredith Home) is one of the most significant of these, in part, because it is a testament to the civic involvement of Belleveillians. Locals raised funds in the midst of the depression to construct it because they saw it as a significant project.

The building again stimulated public involvement when demolition seemed inevitable.

The building is poised once again to become an economic engine for this city. Now is a good time to SEIZE the opportunity to make it happen.

Larry Betz

Mr. Betz is, from the Historical Society, and they as an organization support this development. They have a copy of the original blueprints and are dated one month before the stock market crash in 1929. The project was doomed at that point. There were a group of civic members, mostly through the Chamber, that stood up and took charge to raise the money to make that project happen.

The architect shows a style of architecture that was very popular in the United States at that time. It has preceded its popularity in Europe but in the 1920's the art deco style moved into this country and the architect chose that style which was very modern at that time.

It was primarily developed to draw people from St. Louis to Belleville, right across the Eads Bridge straight out West Main Street to Public Square to eat white asparagus.

ORAL REPORTS

FINANCE COMMITTEE

Alderman Pusa made a motion seconded by Alderman Schaefer to approve the amended development agreement with MH Belleville Associates, LP.

Discussion...

Alderman Wigginton stated without this the building will be gone and a gaping hole present as opposed to a building lit up, vibrant and generating economics. Mr. Hagberg brought up an interesting point about how much the city has invested. Alderman Wigginton talked to the committee about the return on the investment and that it is bringing people living in an urban center. This can spur other buildings being built up, other loft apartments being occupied.

This is not a short term deal. This deal on 47 units should not revolve around 12 units that will have vouchers. You must look at the entire building. Ten years from now if the city looks back at a building that is gone and the city has to come up with \$1.5 million to tear down the city will be saying "shame on us".

Alderman Randle stated the investment to date is approximately \$625,000. Tonight the council is here to discuss an additional investment of approximately \$476,000 which would be defrayed by the sales price of \$600,000. The bottom line is the City stands to recoup it's investment with property taxes over approximately 20 years which will be given an additional 50 years or more of life. The business of investing is finding a return on your investment. There are a number of factors that determine whether or not that investment rewards the shareholders accordingly. This will be a long-term investment.

This situation is a bit like the antique car collector who finds a show of the classic with the intent to restore only to discover he neither has the keys nor the money nor the expertise to pull it off. It is time we put the keys in the hands of those that will be able to make it run again.

Members voting aye on roll call: Hazel, Pusa, Randle, Anthony, Ovian, Schaefer, Dintelman, Gaa, Stiehl, Weygandt, Elmore and Wigginton. (12)

Member voting nay on roll call: Barfield. (1)

ADJOURNMENT

Alderman Randle made a motion seconded by Alderman Schaefer to adjourn at 6:42 pm.

All members voted aye.

Jennifer Gain Meyer, City Clerk

Belleville, Illinois,) **Act, 33 U.S.C. § 1319(a)**

I. INTRODUCTION

1. The U.S. Environmental Protection Agency (“EPA”) makes the findings of fact set forth below (Section IV) and is issuing this Administrative Order on Consent (“Order on Consent” or “Order”) to the City of Belleville (the “Respondent”) under the authority of Section 309(a) of the Clean Water Act (“CWA” or “Act”), 33 U.S.C. § 1319(a). The Administrator of EPA has delegated the authority to issue such orders to the Regional Administrator of EPA Region 5, who has re-delegated this authority to the Director of the Water Division, EPA, Region 5.
2. This Order is mutually entered into by EPA and the Respondent.
3. At all times relevant to this Order, the Respondent has owned and operated the Belleville Sewage Treatment Plant (STP #1), located at 450 Environmental Drive, Belleville, Illinois (the “Facility”).
4. EPA alleges that the Respondent failed to comply with National Pollutant Discharge Elimination System (“NPDES”) Permit No. IL0021873 at STP #1, in violation of Section 301(a) of the CWA, 33 U.S.C. § 1311(a).
5. By entering into this Order, the Respondent: (1) consents to EPA’s authority to issue and enforce this Order; (2) neither admits nor denies the factual allegations as set forth in this Order; (3) agrees to undertake all actions required by the terms and conditions of this Order; (4) consents to be bound by the requirements set forth herein; and (5) agrees not to contest the authority of EPA to issue or enforce this Order or the validity of any terms or conditions in this Order.
6. For the purposes of this Order, the Respondent waives any and all remedies, claims for relief, and otherwise available rights to judicial or administrative review that the Respondent may have with respect to any issue of fact or law set forth in this Order on Consent, including, but not limited to, any right of judicial review under Chapter 7 of the Administrative Procedure Act, 5 U.S.C. §§ 701-06.

II. STATUTORY AUTHORITY

7. Section 301(a) of the CWA, 33 U.S.C. § 1311(a), prohibits the discharge of any pollutant by any person except, *inter alia*, in compliance with an NPDES permit issued pursuant to Section 402 of the CWA, 33 U.S.C. § 1342.
8. Section 402 of the CWA, 33 U.S.C. § 1342, authorizes states to request approval from EPA to administer their own permit programs for discharges into navigable waters within their jurisdictions.
9. Pursuant to Section 402 of the CWA, 33 U.S.C. § 1342, the State of Illinois requested approval from EPA to administer its own permit program for discharges into navigable waters within Illinois, and such approval was granted by EPA on October 23, 1977, 42 Fed. Reg. 58,566 (Nov. 10 1977). Therefore, pursuant to the State's permit program, the Illinois Environmental Protection Agency ("IEPA") has issued IEPA NPDES permits. Violation of an NPDES permit is a violation of Section 301(a) of the CWA, 33 U.S.C. § 1311(a).
10. Section 307(b) of the Act, 33 U.S.C. § 1317(b), states "the Administrator shall publish proposed regulations establishing pretreatment standards for introduction of pollutants into treatment works which are publicly owned for those pollutants which are determined not to be susceptible to treatment by such treatment works or which would interfere with the operation of such treatment works"
11. Pursuant to 307(b) of the Act, 33 U.S.C. § 1317(b), the Administrator published "General Pretreatment Regulations for Existing and New Sources" on January 28, 1981, codified at 40 C.F.R. Part 403. By the terms of this regulation, the requirements of Part 403 became effective three years from the date of promulgation.
12. Section 307(d) of the Act, 33 U.S.C. § 1317(d), states that "after the effective date of any ... pretreatment standard promulgated under this section, it shall be unlawful for any owner or operator of any source to operate any source in violation of any such ... pretreatment standard."
13. Section 309(a) of the CWA, 33 U.S.C. § 1319(a), provides that, whenever EPA finds that any person is in violation of any condition or limitation that implements, *inter alia*, Sections 301(a) and 402 of the CWA, 33 U.S.C. §§ 1311(a) and 1342, EPA shall issue an order requiring such person to comply with such condition or limitation, and shall specify a time for compliance that EPA determines to be reasonable taking into account the seriousness of the violation and any good faith efforts to comply with applicable requirements.

25. The “Respondent” shall mean the City of Belleville.

26. “State” shall mean the State of Illinois.

27. “Wastewater Treatment Plant” or “WWTP” shall mean the Wastewater Treatment Plant identified in the NPDES permit issued to the City of Belleville and located at 450 Environmental Drive, in Belleville, Illinois.

28. “Work” shall mean any and all activities the Respondent is required to undertake and accomplish under this Order.

IV. FINDINGS OF FACT AND LAW

29. The Respondent is a “person” as that term is defined in Section 502(5) of the CWA, 33 U.S.C. § 1362(5), and 40 C.F.R. § 122.2.

30. The City of Belleville is a municipality chartered under the laws of the State of Illinois and as such, is a “municipality” and a “person” as those terms are defined in Sections 502(4) and (5) of the CWA, 33 U.S.C. § 1362(4) and (5), and 40 C.F.R. § 122.2.

31. The Respondent was issued renewed NPDES Permit No. IL0021873 (“Permit”) under Section 402 of the CWA, 33 U.S.C. § 1342, which became effective on October 1, 2015. At all relevant times, the Respondent was authorized to discharge pollutants from the facility to waters of the United States only in compliance with the specific terms and conditions of the Permit.

35. 40 C.F.R. § 403.3(c) defines the term “Approval Authority” to mean the Director in an NPDES State with an approved state pretreatment program and the appropriate Regional Administrator in a non-NPDES state or NPDES state without an approved state pretreatment program.

36. 40 C.F.R. § 403.3(f)(1) states that the term “Control Authority” refers to the POTW if the POTW's Pretreatment Program Submission has been approved in accordance with the requirements of 40 C.F.R. §403.11.

37. EPA approved Respondent’s pretreatment program on April 18, 1985. The pretreatment program and regulatory provisions for the pretreatment program are incorporated in Respondent’s Permit under Special Condition 10. Special Condition 10.A.1 states that the permittee shall implement and enforce its approved pretreatment program and all approved subsequent modifications.

38. Pursuant to the definitions set forth in the General Pretreatment Regulations at 40 C.F.R. §§ 403.3(c) and (f), and as these terms are used in this Order, Respondent is the “Control Authority” and EPA is the “Approval Authority.”

39. 40 C.F.R. § 403.8(f)(1) states that a POTW shall operate pursuant to legal authority enforceable in Federal, State, or local courts, which authorizes or enables the POTW to apply and to enforce the requirements of Sections 307(b) and (c), and 402(b)(8) of the Act, 33 U.S.C. §§ 1317(b), 1317(c) and 1342, and any regulations implementing those sections.

40. On December 16, 1996, the Respondent adopted, passed, and enacted Ordinance No. 5677, at Chapter 51 of the Municipal Code of the City of Belleville, Illinois, hereby referred to as “Sewer Use Ordinance” or “SUO,” as required by 40 C.F.R. § 403.8(f)(1).

41. 40 C.F.R. § 403.8(f)(5) requires a POTW under a Pretreatment Program to develop and implement an Enforcement Response Plan (ERP).

42. Respondent established the ERP by the enactment of Ordinance No. 5677, as required by 40 C.F.R. § 403.8(f)(5).

43. From August 3 through 6, 2015, an EPA team conducted an on-site pretreatment compliance inspection (August 2015 Inspection). The August 2015 Inspection consisted of interviews with the Respondent, four industrial user (IU) file reviews, and two IU on-site inspections. The team reviewed files for the following IUs:

- a. Peerless Premier Appliances Company (PPAC)
- b. International Paper Company (IPC)
- c. Roesch Inc.
- d. Quality Plating Inc.

44. On April 25, 2017, EPA provided the inspection report and findings of the August 2015 Inspection to Respondent. The report identified deficiencies in Respondent’s Pretreatment Program.

45. Based on the information provided by the Respondent and IUs during the August 2015 Inspection, EPA finds that Respondent is in violation of the General Pretreatment Regulations for Existing and New Sources of Pollution at 40 C.F.R. Part 403 and its Permit as detailed below.

46. Respondent’s NPDES permit Special Condition 10.A.8. required that Respondent conduct a technical re-evaluation of its local limitations and submit the evaluation as well as any proposed revisions to IEPA and U.S. EPA for review and approval within one year from the effective date of the permit. Respondent failed to conduct and submit the evaluation within the timeframe required in the permit.

47. Special Condition 10.A.6. requires Respondent to establish agreements with contributing jurisdictions, as necessary, to enable Respondent to fulfill its requirements with respect to all IUs discharging to Respondent's system. Respondent's agreements with its four contributing jurisdictions fail to include provisions regarding updating the IU inventory, allowing Respondent inspection access and enforcement of the Respondent's pretreatment program.

48. EPA's review of Respondent's IU permits identified a number of deficiencies, including but not limited to, permit duration more than five years, maximum penalties limited to \$500 rather than \$1,000 and failure to include slug loading notification requirements.

49. Each violation of the conditions of the Permit or regulations described above is a violation of Section 301 of the CWA, 33 U.S.C. § 1311.

V. ORDER ON CONSENT

50. Based on the foregoing findings and the authority vested in the undersigned Director, Water Division, it is hereby ordered and agreed to in accordance with Section 309(a) of the CWA, 33 U.S.C. § 1319(a), that the Respondent comply with the following actions set forth below.

Pretreatment Program Submittal

51. Pursuant to Special Condition 10.A.7 of its NPDES permit, Belleville must submit a proposal to modify its Pretreatment Program to incorporate streamlining regulations, within 30 days of the effective date of this Order.

52. Belleville must conduct a technical re-evaluation of its local limitations consistent with EPA's Local Limits Development Guidance (July 2004) pursuant to Special Condition 10.A.8 of Belleville's NPDES permit. Within four months of the effective date of this Order, Belleville must submit the re-evaluation and any proposed revisions to its local limits to IEPA and EPA Region 5 for review and approval in accordance with Special Condition 10.A.8.

53. In conjunction with Paragraph 52 above, Belleville must change its local limit for mercury in accordance with Illinois Law (Title 35, Environmental Protection Agency, Subtitle C, Water Pollution, Chapter I: Pollution Control Board, Section 307.1102, no person may discharge more than 0.0005 mg/l of mercury).

Pretreatment Program Implementation

54. Pursuant to 40 CFR § 403.8(f)(2)(v), Belleville must sample effluent from IUs at least once a year. Belleville may use the same contractor as the IU to collect samples, but Belleville must retain the contractor for its samples.

55. Under 40 CFR § 403.8(f)(ii), Belleville must require compliance with applicable Pretreatment Standards and Requirements by IUs. Specifically, within 30 days of the effective

date of this Order, Belleville must update Permit 03-PRE-3 to reflect the correct categorical determination for PPAC in recognition of the change of operations from porcelain enameling.

56. Pursuant to 40 CFR § 403.8(f)(2)(vi), Belleville must evaluate each significant industrial user (SIU) to determine whether the SIU needs a slug discharge control plan within 30 days of the effective date of this Order. If Belleville determines that an SIU needs such a plan, Belleville must determine whether the plan contains the required elements and must maintain the plan in the SIU's file:

- a. Description of discharge practices, including non-routine batch discharges;
- b. Description of stored chemicals;
- c. Procedures for immediately notifying the POTW of slug discharges, including any discharge that would violate a prohibition under 40 C.F.R. § 403.5(b) with procedures for follow-up written notification within five days;
- d. If necessary, procedures to prevent adverse impact from accidental spills.

57. Pursuant to 40 CFR § 403.8(f)(2)(v), Belleville must randomly sample and analyze the effluent from industrial users and conduct surveillance activities in order to identify independent information supplied by industrial users.

58. Within six months of the effective date of this Order, Respondent must develop and implement procedures that identify and locate all possible IUs which may be subject to the POTW pretreatment program including the satellite tributary users by the following:

- a. Respondent must develop a written procedure in place to conduct an industrial waste survey.
- b. In conjunction with paragraph 82 below, Respondent, through its user agreements with the satellite communities, must secure authority to conduct an industrial waste survey in those satellite communities.

59. Respondent must categorize Categorical Industrial Users (CIUs) using current information about their processes pursuant to 40 C.F.R. § 403.8(f)(2).

60. CIU permits must identify the applicable categorization for each CIU (category, subpart), whether the source is new or existing.

61. IU inspection reports and IU files must include an evaluation of whether the IU needs a slug discharge control plan.

62. Respondent must maintain a record of action taken in the IU file (such as details about any slug loads or accidental discharge, any adverse impacts at the POTW, enforcement actions taken, etc.).

63. Respondent must ensure that laboratory bench sheets are checked to ensure that samples are not received by the laboratory at more than 6 degrees Celsius pursuant to 40 C.F.R. § 136.3. Laboratory bench sheets must include an attached chain-of-custody sheet.
64. Respondent must follow its ERP in response to effluent limit violations and any failure to resample and report sampling results. Respondent must retain documentation of all pretreatment and enforcement activities in each IU file for a minimum of three years.
65. Respondent must follow its ERP in response to IUs discharging a slug load and IUs not providing the required certification statement in its self-monitoring reports.
66. Respondent must stamp and date the IU self-monitoring reports when received by the Respondent to verify that the IU submitted the report on time.
67. Respondent must ensure that copies of the permits as issued and on file contain the signature of the Respondent's City official authorized to issue permits.

Requirements in IU Permits

68. Pursuant to 40 C.F.R. § 403.8(f)(1)(iii)(B)(1), Belleville's IU permits must contain a statement of duration, in no case more than five years.
69. Pursuant to 40 C.F.R. § 403.8(f)(1)(vi), Belleville must have the authority to seek or assess civil or criminal penalties in at least the amount of \$1,000 per day for each violation by industrial users in violation of Pretreatment Standards and Requirements. Belleville must cite this authority in renewed IU permits.
70. Pursuant to 40 C.F.R. § 403.12(f), Belleville's IU permits must include slug loading notification requirements.
71. Pursuant to 40 C.F.R. § 403.17(c)(2), Belleville's IU permits must include bypass notification requirements.
72. Pursuant to 40 C.F.R. § 403.12(g)(2), Belleville's IU permits must require IUs to notify Belleville about discharge violations within 24 hours of becoming aware of them. The permits must also require the IUs to repeat sampling and analysis, and to submit the results of the repeat analysis within 30 days of becoming aware of the violation.
73. Pursuant to 40 C.F.R. § 403.12(g)(5), Belleville's IU permits must require analytical procedures to be in accordance with 40 CFR Part 136.
74. Pursuant to 40 C.F.R. § 403.12(g), Belleville's IU permits must include flow monitoring requirements. The permits should require IUs to submit daily flow monitoring reports, provide

location of flow monitoring, describe the type of flow monitoring used, and require flow monitoring data to be submitted with periodic reports.

75. Pursuant to 40 C.F.R. § 403.12(g)(5), Belleville's IU permits must require analytical procedures to be in accordance with 40 C.F.R. Part 136. This includes proper preservation of samples and chain of custody procedures.

76. Belleville's IU permits must include a requirement that all sampling discharge results must be reported to Belleville.

77. Pursuant to 40 C.F.R. § 403.12(g)(3), Belleville must require grab samples for pH, cyanide, total phenols, oil and grease, sulfide, and total organic compounds.

78. Respondent must provide consistency in sample type requirements in IU permits and document authorization of alternative sample techniques in IU files.

79. The Quality Plating IU Permit and other applicable permits must incorporate the more stringent categorical limit for cyanide. Quality Plating Inc. is in the Electroplating Point Source Category, for which the most stringent cyanide effluent limit is 5.0 mg/l.

80. Belleville must revise the Quality Plating IU Permit to include total toxic organic (TTO) monitoring requirements or to adhere to an approved Toxic Organic Management Plan (TOMP) pursuant to 40 C.F.R. § 403.8(f)(1)(iii)(B)(3).

81. All IU permits must include certification statements pursuant to 40 C.F.R. § 403.6(a)(2)(ii).

Satellite Agreements

82. Within one year of the effective date of this Order, Belleville must revise, amend or enter into new intergovernmental agreements with Belleville's tributary satellites to include provisions requiring updates to industrial user inventories, and provisions to allow Belleville access for inspections and enforcement of Belleville's industrial pretreatment program.

VI. DOCUMENTATION AND SUBMISSIONS

83. The Respondent must submit a status report to EPA within 30 days of the end of each calendar-year quarter (i.e., by January 31, April 30, July 31, and October 31), until this Order is terminated. 86. In the event of a change to the Project Coordinator, the Respondent will provide notification in writing, pursuant to paragraphs 84 and 85 above, within 30 days after the change.

87. EPA may require additional status reports, or fewer status reports, for the purpose of documenting the progress of the Work performed pursuant to this Order or compliance with the Permit requirements. Mayor Mark W. Eckert
City of Belleville
703 Blair Avenue
Belleville, IL 62220

Dear Mayor Eckert,

My name is Rafael Torres and I am the owner of Mi Casa Mexican Restaurant at 4311 West Main Street. I am writing to request permission to hold a special event at our business on May 5, 2018 to celebrate Cinco de Mayo. We would like to use a small part of our parking lot to hold an outdoor celebration on May 5 during our regular business hours of 11:00 a.m. to 11:00 p.m. (weather permitting). This would only use a small portion of our parking lot (approximately five (5) parking spaces) and would include live music from a DJ and activities for kids such as piñata breaking. During that time, we also will operate our regular business inside the restaurant. The live music would take place from 5:00 p.m. to 11:00 p.m.

Can you please present this letter to the City Council during the March 5, 2018 meeting for approval? Our restaurant is celebrating nine years in business in Belleville, and we'd like to hold this special event as a way to show our appreciation and say Thank You to the community and all our wonderful customers.

We greatly appreciate your consideration in this matter. Should you have any questions or concerns, please do not hesitate to contact me at the restaurant (618) 355-7990 or on my cell phone (618) 600-2862, or by email at rafitatorres@hotmail.com. Thank you!

Sincerely,

Rafael Torres
